

TOMÁS UHÍA OTERO

Junior Full-Stack Developer / AI Automation

📞 698107375 @ tomasuhiaotero@gmail.com 🔗 [Linkedin](#) 🔗 [Github](#) 📍 Pontevedra, Spain

PROFILE

I am a **Junior Full-Stack Developer** with experience in **JavaScript**, **Python**, **React**, and **SQL**. I enjoy transforming ideas into digital solutions that genuinely add value. I have contributed to **enhancing the usability and performance** of web and mobile applications, always with a **collaborative attitude** and a desire to continue learning.

EXPERIENCE

Full-Stack Developer | AI & Automation

RE/MAX

📅 07/2026 - Present 📍 Pontevedra, Spain

Automation of processes with AI, lead tracking, integration, and management of WhatsApp Cloud API, along with general IT support in the real estate sector.

- Automated management of real estate leads and follow-up through bots using WhatsApp Cloud API, increasing responsiveness by over 30%.
- Implemented AI for automatic data filling in contracts, saving more than 50% of the time spent on manual entry.
- Consulting services: Identifying processes to automate, improving software, managing external services, etc.

Full-Stack Developer

ITSalnés

📅 02/2026 - Present 📍 Pontevedra, Spain

Web and mobile application for managing hotels, restaurants, etc.

- Developed a zero-to-one invoice management and registration scanner with AI using **JAVA**, **Spring**, and **MongoDB**, eliminating hours of manual data entry.
- Utilized various technologies and tools including **Mistral**, **Android Studio**, **IntelliJ**, **Postman**.
- Integrated AI tools to boost productivity and efficiency while maintaining control and scalability.

Front-End Developer Intern

LoggForSport

📅 09/2024 - 12/2024 📍 Pontevedra, Spain

Company focused on real-time tracking and visualization of aerial and aquatic sports events through websites.

- Conducted sector benchmarking.
- Planned and created a Landing Page using **HTML**, **CSS**, **JAVASCRIPT**, and **REACT**.
- Performed **optimization** and **testing** of the page.

PROJECTS

TomasDex

📅 2026 📍 Pontevedra, Spain

🔗 <https://tomasdex.netlify.app/>

Website integrating the use of Custom Agents and Skills.

- Developed a project using **ReactJS** + **Vite** with **TypeScript** to showcase data from the PokeAPI.
- Utilized **opencode** with **custom agents** to enhance code quality, robustness, and scalability.
- Automated **testing** to ensure optimal results while following best practices for optimization and performance, maintaining oversight of AI usage.
